

# Dinosaur Fossil Walk

INSTITUTE FOR  
CREATION  
RESEARCH

[ICR.org](http://ICR.org)

# ***Albertosaurus***

(al-ber-tuh-SAWR-us)

This dinosaur is perfectly \_\_\_\_\_  
by having two \_\_\_\_\_ in the middle of  
its arch-shaped body. It kept a balanced walk. With  
each step, its foot and tail swung one way while its  
body swung the other. Now you try!

# *Archaeopteryx*

(ark-ee-OP-ter-iks)

Scientists found \_\_\_\_\_  
in this bird's fossil. It's like leaving a strawberry on the  
windowsill and watching it shrivel after a few days—  
soft tissues won't last long without decaying. This  
fossil is \_\_\_\_\_!

# ***Ichthyosaurus***

(ICK-thee-o-sawr-us)

This creature was buried while giving birth. Fast-moving mud must have \_\_\_\_\_ it.

# ***Edmontosaurus*** (ed-mahn-toh-SAWR-us)

Scientists found \_\_\_\_\_  
in a duck-billed dinosaur leg bone. \_\_\_\_\_  
\_\_\_\_\_ in this dinosaur fits the timing of  
Noah's Flood thousands of years ago, not millions.

# *Triceratops*

(try-SEHR-uh-tops)

A full-grown *Triceratops* head weighed about \_\_\_\_\_ pounds. It swiveled on a ball \_\_\_\_\_, much like a trailer hitch on a truck. These dinosaurs sparred—they fought like bulls do. Their strong ball joints did not break. Could either the ball \_\_\_\_\_ or the huge \_\_\_\_\_ evolve first?

# *Tyrannosaurus rex*

(tye-RAN-oh-sawr-us REKS)

Scientists photographed these soft tissues from a

*T. rex* \_\_\_\_\_.

[*Science* 307:1952, 2005.]

# Neanderthal

(nee-AN-der-tahl)

Caves in \_\_\_\_\_ have Neanderthal fossils. These ancient people had funerals, jewelry, bone flutes, and human \_\_\_\_\_.

Instead of being primitive, Neanderthals were fully formed \_\_\_\_\_, just like us!

# Putting it all together

- God created animals and humans in the beginning, all very \_\_\_\_\_. No wonder they show such great design.
- God judged humans and animals in a worldwide \_\_\_\_\_ only \_\_\_\_\_ of years ago. Many creatures got \_\_\_\_\_ in mud and became fossils. Some of them still have \_\_\_\_\_.
- After the Flood, some animals like dinosaurs went extinct. Some varieties of animals, like sabre-toothed cats, went extinct. And some varieties of humans, like \_\_\_\_\_ went extinct.
- \_\_\_\_\_ confirms Scripture.
